

# END CLOSURE FOAM STRIPS PRODUCT INFORMATION

Inserted under flashings to seal metal and polycarbonate sheets against weather, dust and pests from entering the roof cavity. Made from closed cell EVO foam.

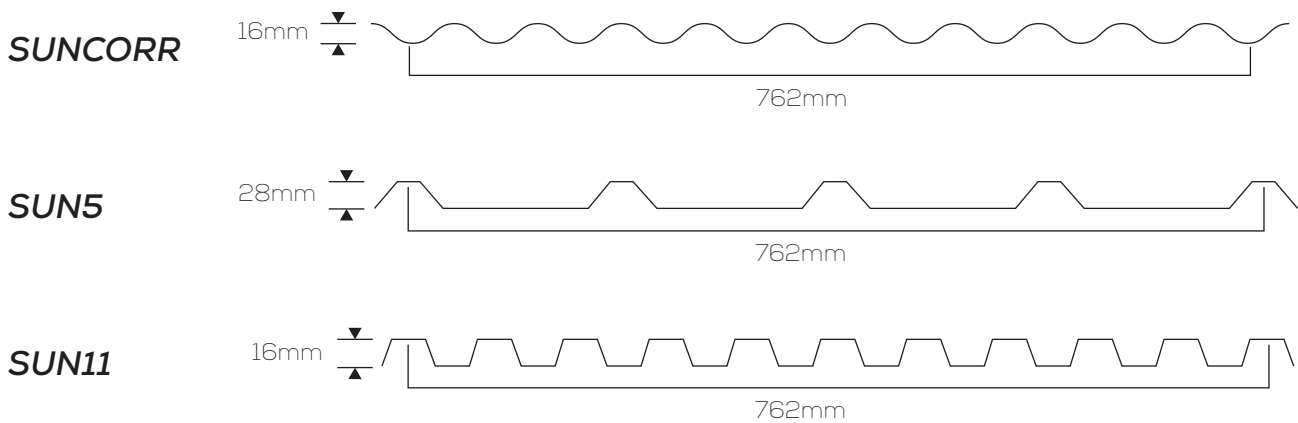

Three profile types are available in black and white in packs of four pieces, which covers four sheets. **NOTE: SUN5** has two top and two bottom pieces per pack which will cover two sheets.

**SUNCORR** - which suits corrugated iron profiles.

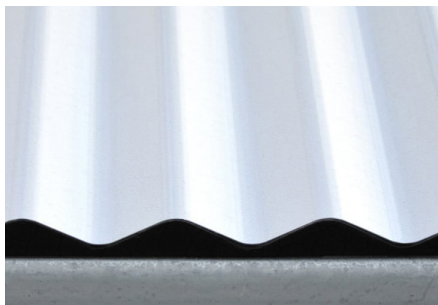

**SUN5** - which suits a 5 ribbed raised profile.

**SUN11** - which suits an 11 ribbed raised profile.
